# PARKS ARE A PLACE TO MAKE MEMORIES

In 2019, the Park System continued its dual mission to preserve open space and provide recreational opportunities for the residents of Monmouth County. By offering enriching experiences in a beautiful setting where people feel comfortable and welcome, park visits become lasting memories, and some park activities turn into traditions.

Annual events for fun or competition have been fostering the bonds of family or friendship for decades. The agriculture-based Monmouth County Fair, for instance, has been a summertime “must-go” for area residents since 1975, while the team-oriented Timberbrook Triathlon has been testing athletes since 1995. Children attending summer camps share important rites of passage such as learning how to swim, ride a bike or kayak/canoe while friends may take a craft class together to relax and reconnect.

Being outside together in nature is a great facilitator of special memories. Former students and scouts fondly recall details of a class trip or learning adventure to park staff. People who enjoyed Holmdel Park’s cross-country meets or sled hill in their youth return years later with their own children. Certain park events easily became a shared experience across generations.

Whether it’s a private moment with nature or a shared visit, the parks are attracting more people than ever before. The number of annual visits topped 7 million for the first time in 2019 (left). Please see the following pages to learn more. There is a review of this year’s park accomplishments (pages 4-6) and land acquisitions (pages 8-9), along with the Park System’s annual financial statement (pages 12-14).

# 2019: PARK PARTNERS

In 2019, 1,226 volunteers contributed 25,989 hours to maintain and beautify the parks and staff park events. Highlights this year included hundreds of volunteers who attended Core Training events for pruning, trails and tool maintenance, invasive species removal, and how to be a docent, program assistant or endangered bird species monitor. Many volunteers also attended topic lectures and park hikes as part of a new "Just for You" Workshop Series.

Volunteers attend an informational "Just for You" hike to explore the trails at Hartshorne Woods Park and an invasive species lecture. Trail team experts repair the source of erosion on a trail at Huber Woods Park, while student volunteers help in the gardens at Longstreet Farm.

**FRIENDS of the  
Monmouth County  
Park System, Inc.**

Founded in 1991, this non-profit facilitates sponsorship and hosts fundraising events/activities to raise money for special projects in the parks. In 2019, this included 16 new memorial park benches as a tribute to the memory of loved ones (pictured); a new wheat thresher for demonstrations at Longstreet Farm; and trees, water lilies and roses for Thompson Park and Deep Cut Gardens. Funding continued for staff training, scholarships for urban youth to attend park camps and fees to support after school excursions, and special activities for volunteers and young adults with disabilities. MCF has directly preserved more than 6,500 acres of open space and farmland and is one of nearly 420 accredited land trusts out of 1,700 nationwide. Jointly, MCF and Monmouth County are working to restore the future home of Swimming River Park (formerly Chris' Marina and Deli, pictured) in Middletown and transform it into a beautiful park with riverfront access for all to enjoy.
